The following was sent to the KYAE listserv.

KYAE Professional Development Registration is NOW OPEN!

All program directors and instructors:

Please read the [2016-17 Professional Development Handbook](#) before registering for institutes, online courses, or blended courses. The institutes are available on a first- come, first-served basis.

The link to the **KYAE Course Catalog** is in the handbook. Use it to actually register for the courses. For any questions about a particular training, contact the course facilitator. Their contact information is in the handbook.

KYAE is pleased to offer a variety of excellent learning opportunities as described in the [2016-17 KYAE Professional Development Handbook](#). In addition to the courses offered by our wonderful KYAE contracted facilitators, KYAE has contracted with nationally recognized presenters to bring our programs the very best professional learning available:

- Sara Gutting, Indiana adult education teacher and educational consultant, is back and will be co-facilitating the Peer Coaching Institute.
- Bonnie Goonen and Susan Pittman are back and working their magic with trainings for RLA this year.
- After a year off, master teacher and curriculum developer, Steve Hinds, will once again share his insights on teaching adult students. Steve offers two institutes this year: Algebra and Functions in the fall, Geometry and Measurement in the spring.
- Our online math courses were developed by and will again be facilitated by Brooke Istas, subject matter expert/moderator for the LINCS mathematics community and math professor at Cowley County Community College in Kansas; and Lynda Ginsburg, founding member of the Adult numeracy Network and Senior Research Associate for Mathematics Education at Rutgers University, New Jersey.
- Finally, we have contracted with Texas-based Mockingbird Education to present their Vulnerable Learner Methodology, a comprehensive approach that "helps vulnerable learners transcend learning barriers."

So, enjoy discovering the rich learning opportunities that await you this year and secure a place in your chosen course by being among the first to register as capacity is limited.

Have a productive and rewarding 2016-17!
